SCHOOL ADMINISTRATIVE UNIT #

Mr. Richard A. Lasalle
Superintendent
Timberlane Regional School District
30 Greenough Road
Plaistow, NH 03865-2724

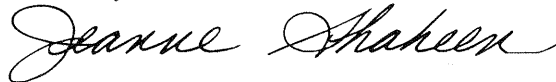

Dear Richard,

Congratulations to the Timberlane School District on its recent Energy Star award from the U.S. Environmental Protection Agency. You have been recognized as the first school district in New Hampshire to have multiple buildings cited for superior energy performance.

Six schools in the Timberlane School District are now among the top 25 percent nationally for energy efficiency. I am both pleased and proud to see your commitment to efficiency recognized in this way. Your work with the Jordan Institute in benchmarking your buildings' energy performance illustrates the type of cooperation and integration of services and technology that can help us achieve our energy goals in the future.

I commend you on your efforts to reduce both costs and emissions, and for serving as a model for other schools in New Hampshire and across the country. I look forward to hearing more about Timberlane's dedication to the future of its students and community.

Sincerely,

Jeanne Shaheen
United States Senator
